WELCOME

Dear Industry Partners,

It is an honour and a pleasure to invite you to support the 7th International Lymphoedema Framework Conference, which will be held 21 - 24 June 2017 in Siracusa, Sicily, Italy. We are proud to announce that this conference will be hosted by the International Lymphoedema Framework (ILF) and the Italian Lymphoedema Framework (ITALF).

Your support of the conference is vital to its success, and we believe that your presence and partnership will provide you with rewarding business opportunities: we expect approximately 500 delegates from more than 40 countries who are all involved in the field of lymphoedema.

The selection of Siracusa for the 7th International Lymphoedema Framework Conference is a choice with a special symbolic meaning. The Italian Patient Association 'SOS Linfedema' was born in Siracusa as a revolt against the denied health condition, which was the case for lymphoedema patients for years. Since then, SOS Linfedema has led a series of battles for the defense of rights of lymphoedema patients.

In addition, Italy is historically one of the 'cradles' of lymphology worldwide, and the interest in the anatomy and pathophysiology of the lymphatic disease has always been deep. It is therefore fitting that this conference be held in conjunction with the ILF's newest national lymphoedema framework. Thanks to the advocacy efforts of the Italian Lymphoedema Framework, both primary and secondary lymphoedema patients are now recognized the right to health and assistance by the Italian public health system. We hope this will be an example for other countries.

The scientific committee, consisting of representatives both from ILF and ITALF, is working on a programme for the 7th International Lymphoedema Framework Conference that will be of relevance for both healthcare professionals, patients, researchers as well as industry. The principal topics for the conference will include: Lymphoedema and disability; Skincare and lymphoedema; Therapeutic education of children with lymphoedema; Surgery and lymphoedema; Breast cancer symposium; Obesity and lymphoedema; Lipoedema; Palliative care and lymphoedema; Psychological aspects of lymphoedema; Drugs and lymphoedema; Diagnostics; Developments in compression; Infection in lymphoedema.

With the 7th International Lymphoedema Conference, we aim to achieve a greater awareness of the condition and treatment throughout the world, and to ensure that lymphoedema becomes a priority on the national health care agenda everywhere.

We look forward to welcoming you in Siracusa.

On behalf of the local organizing committee and ILF board,

Sandro Michilini
Local Chair

Christine Moffatt
